AMERICAN & FOREIGN PATENTS

R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practicioners with whom I have had official intercourse.
CHAS. MASON," *Commissioner of Patents.*

"I have no hesitation in assuring Inventors that they cannot employ a person *more competent* and *trustworthy,* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on *twelve* rejected applications, SIXTEEN APPEALS, EVERY ONE of which *was decided in his favor,* by the Commissioner of Patents.

THE
ONLY PREPARATION
THAT HAS
STOOD THE TEST OF YEARS,
And grows more and more popular every day!
And testimonials, new, and almost without number, might be given from ladies and gentlemen in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.
Battle Creek, Mich., Dec. 21st, 1858.
PROF. WOOD: Thee will please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with [illegible] of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have faithfully followed the directions and the bald spot is now covered with hair think and black, though short; it is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and the fatherless."
Thy friend, SUSANNAH KIRBY.
Ligonier, Noble Co., Indiana,
Feb. 6th, 1859.
PROF. O. J. WOOD: Dear Sir:—In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.
I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dollars' worth of your Restorative, and as a result, have a rich coat of very soft black hair, which no money can buy.
As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like effect. Very respectfully, yours,
A. M. LATTA,
Attorney and Counsellor at Law.
Depot, 444 Broadway, and sold by all dealers throughout the world.
The Restorative is put up in Bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars a bottle; the large holds a quart, 40 per cent. more in proportion and retails at $3 a bottle.
O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market Street, St. Louis, Mo.
And sold by CASWELL, MACK & CO., 137 Thames Street, Newport, and by all good Druggists and Fancy Goods Dealers.

THE MILLER'S MAID

(Concluded.)

Hanchen looked around in great alarm, but saw no one. The child still continued to run with all its might, and she hoped it was but a false alarm to excite her and overcome her resolution, when, just as the child reached a hollow in the next field, (the channel of a natural drain) she saw a ruffian start from the head of the drain, and snatching the child in his arms, hastened with him to the mill, in accordance with the direction of his accomplice. In a moment she perceived the full extent of her danger, and formed her plan for escaping it.

Retreating into the mill, she double locked and barred and bolted the door, the only apparent entrance into the building, every other means of obvious access prevented by strong iron grating fixed up against all the windows, and then took her post at the upper casement, determined to await patiently her master's return, and, her consequent delivery from the dangerous position of her own death if inevitable—for she was fully determined to enter into no terms, and that nothing should induce her to give up her master's property into the robber's hands.

She had hardly time to secure herself in her retreat, when the ruffian, holding the screaming child in his arms, and brandishing a knife in one hand, came up and bid her open the door, or he would break it down, adding many fearful oaths and threats, to which her only answer was that she put her trust in God.

Heinrich, who from his window was a witness to this colloquy, now called out to cut the child's throat before her eyes, if she persisted in her refusal.

Poor Hanchen's heart quailed at this moment. The death of the child could be no gain to them, while her own death was certain if she admitted the assailant, and her master, too, would be robbed. She had no reason to suppose her compliance would save the life of the child. It was a risk against nothing, and she resolved to hold out to the last, tho' the villain renewed his threats saying that if she did not open the door to him, he would kill the child, and then set fire to the mill over her head. "I put my trust in God," was still the poor girl's answer. In the meanwhile, the ruffian set down the child for a moment, to look for combustibles to carry out his threat. In this search he discovered a mode of entering the mill, unthought of by Hanchen. It was a large aperture in the wall, communicating with the great wheel, and the other machinery in the mill, and it was a point entirely unprotected, for it had never been contemplated that any one would seek to enter it by so dangerous an inlet. Triumphant at this discovery, he returned to tie the hands and feet of the poor child, to prevent its escape, and then stole back to the aperture by which he intended to effect an entrance.

The position of the building prevented Hanchen seeing anything of this—but a thought struck her. It was Sunday, when the mill was never at work; if, therefore, the sails were set in motion, the whole neighborhood would know something was the matter, and her master would immediately hasten home to know the meaning of anything so strange. Being all her life accustomed to the machinery of the mill, it was the work of a moment to set all in motion—a brisk breeze which sprang up at once, set the sails flying. The arms of the huge engine whirled round with fearful rapidity, the great wheel slowly revolving on its axis; the smaller gear turned, and creaked and groaned, according as the machinery came into action, and the mill was in full motion.

It was at this moment that the ruffian intruder succeeded in squeezing himself thro' the aperture in the mill, and getting himself safely lodged in the great drum wheel. His dismay, however, was indescribable, when he began to be whirled about with its rotation, and found that all his efforts to put a stop to the powerful machinery which set it in motion, or extricate himself from this perilous situation, were fruitless. In his terror he uttered shrieks and horrible imprecations. Astonished at the noise, Hachen went to the spot, saw him caught like a rat in his own trap, from which it was no part of her plan to liberate him. She knew he would be more frightened than hurt, if he kept within his rotary prison, without any rash attempts to escape, and that even if he became insensible, he could not fall out of it.

In the meantime the wheel went round and round with its steady and unceasing

motion, and round and round he went with it, while sense remained, beseeching Hanchen with entreaties, promises, and wild and impatient threats, which were equally disregarded, till by degrees, feeling and perception failed him, and he heard and saw no more. He fell senseless at the bottom of the engine, but even then his inanimate body continued to be whirled round as before, for Hanchen did not dare to trust to appearances in such a villain, and would not venture to suspend the working of the mill or stop the gear and tackle from running at their fullest speed. At length she heard a loud knocking at the door, and flew to open it. It was her master and his family, accompanied by several of his neighbors, in the utmost consternation and wonder at seeing the mill sails in full swing on a Sunday, and much more so when they found the poor girl lying bound on the grass, who, however, was too terrified to give any account of what had happened.

Hanchen, in a few words told everything, and then her spirit which had sustained her through such scenes of terror, gave way under the sense of safety and relief, and she fell fainting in their arms, and was recovered with much difficulty. The machinery of the mill was at once stopped, and the inanimate ruffian dragged from his dreadful prison. Heinrich, too, was brought forth from the miller's chamber, and both were in a short time sent bound under a strong escort to Bonn, where they soon met the reward of their crimes.

The history of this extraordinary act of presence of mind concludes by informing us that Hanchen thus effectually cured of her penchant for her unworthy suitor, became eventually the wife of the miller's eldest son; and thus lived all her life in the scene of her great dangers and happy deliverance.

"WHOM THE GODS INTEND TO DESTROY, THEY FIRST MAKE MAD."

This ancient truism was never more efficient than in the recent proceedings of the demagogues of South Carolina and other Southern States, the Rhetts and Keitts and Toombs, to say nothing of the lesser lights who are busy with disunion and treason. That the secessionists or traitors are having it their own way at present is not to be disputed, but that there is no conservative element in those unfortunate localities is not to be supposed. That South Carolina will be hurried into secession seems now almost certain, and that other States will madly follow is by no means improbable. It seems to be an easy step to gain this, to them, much-desired "freedom" from this "cursed Union," but, having taken the plunge, it is a matter for speculation to predict their future. The leaders in this revolution have been, for the last ten years, studiously preparing the minds of our Southern brethren for this experiment, and hence the repeal of the Compromise measures of 1820. The Dred Scott infamy and the Kansas policy have been the culminating points to prepare the minds of the ignorant for the great act in the drama, until the election of a Republican President is seized upon as an act of such enormity as to be no longer tolerated. Not that the election has been unfair—not that the President elect is not competent, honest, and above reproach, but, inasmuch as his policy will be to administer the government according to the designs of Washington, Jefferson, Madison and Munroe; Southern men, and elected to the Presidency by Southern votes, forsooth; for this reason the Republic is to be broken up and chaos is to be preferred. Was ever an excuse for such folly so mean and so contemptible? Must not such leaders be insane? If this was a season of great distress—was there no sale for the cotton, the rice and other products of slave labor—or, was the prices of these products ruling ruinously low, then there might be some little paliation for a change; but, when the whole country is prosperous beyond a former precedent—when every article of slave labor is sought for at full prices—when every thing unites to make the people of the South rich and independent, to seek such a time for treason, is unparalleled in the history of nations, and must eventually consign these leaders to the infamy of an Arnold. The conservative element of the South, now so overawed and despised, is just as sure to show itself, as that secession is effected; and that too, just as soon as the people wake up to their true condition. Already we are told that property has depreciated fifty per cent; and, when South Carolina calls for $400,000, voted by a reckless and crazy Legislature, to accomplish no earthly good, but to set them adrift from the only safety which their situation requires, the taxpayers, unable to meet these extraordinary demands, and the soldiers, disappointed in not obtaining the pay and emoluments promised, together with the wretchedness which will then be apparent in every department of labor, will cause such a reaction as these wise-acres have not anticipated, and, not improbably, bring their own heads to the block, instead of making them Presidents and Generals as the devil is now holding up to their infatuated imaginations. Once out upon the broad ocean of independence from "this cursed Union," and the "sober second thought" will possess the minds of the prudent and thinking, and if not called upon to suppress a negro insurrection, (the most possible of all civil wars, when a common danger will unite the most extremes,) we may expect such action as shall be a lesson to generations yet unborn.

Abstructions such as "Slave Codes," "Personal liberty" bills, and "Northern aggression" will pass only for its worth, and the enquiry will be raised and heeded too, who commenced these aggressions? Who deprived the free citizens of sister States of the rights guaranteed to them by the Constitution? Who refused to test oppressive laws, in the Courts of their own State? Who have stricken down free speech with bludgeons in the Senate Chamber? Who have hunted ministers and christians lynching and murdering them when pursuing their high and holy avocations? If ever there was cause for dissatisfaction, it was for the North rather than the South. Never was there a more loyal people than have been the people of the free states. Anxious to preserve the institutions of their fathers, they have always, to the extent of their consciences "conquered their prejudices," and compromised their most sacred rights to keep peace with the other section, and, four years ago when by a fraud in Pennsylvania, their President was deprived of his seat and the present incumbent permitted to usurp the place, (which none but a Buchanan would be mean enough to accept,) did you hear any threat? No! Taught in better schools, we submitted to this, as to other wrongs, and depending upon the eternal principles of justice, again prepared for another effort. This was successful, but was ever a victorious party more respectful and conciliatory? Was ever a President elect more discreet and honorably disposed? Never!

Then, in view of the horror which so seriously threatens our beloved land, let us not be distrustful of that kind Providence, which has so signally preserved us in former times, and let us hope, that by a right and prudent course, we may avert many of the calamities which the more guilty will be sure to experience, if they proceed to the extremities they threaten. Being victorious we can afford to be generous, and just so soon as our Southern brethren shall wipe the first cause of all this difficulty from their statute books, namely the right which they claim to imprison colored seamen then, but not till then, let them complain. If the North does not meet them with such a spirit of reciprocity as shall show how anxious we are for peace and to remove every cause of complaint, then they will be likely to get some sympathy.

☞ It will be seen by reference to the Prospectus of *The New York Ledger*, which will be found in another column, that the proprietor of that popular weekly has secured an array of distinguished contributors for his paper for the New Year such as has never been equaled by any publication in the world. *The Ledger* is always characterized by a high moral tone, and has a circulation larger than that of any other ten literary journals in the country.

The professionally clerical cast of countenance is not attractive as a general fact. We mean the expression which many clergymen think it necessary to put on at religious meetings, and on all occasions when they feel that they are representing religion in public. It is solemn rather than serious, vacant instead of thoughtful, awful rather than good, ghostly rather than divine.

Some people's notions of comfort differ from those of others. Mr. Mathews once went over Warwick jail, and when he came to the "place of execution," he observed to the jailer, that the drop struck him as very small. "I don't know," said the man, "to be sure, six 'ould be crowded, but foive 'ould hang very comfortable!"

The largest piece of silver ever taken from a mine, was found in Norway, and placed in the Royal Museum at Copenhagen. It weighed 560 pounds, and was worth about $9,000. In South America a mass of silver, nearly pure, was found in 1794, which weighed 370 pounds.

Always be quite as careful in your business transactions of taking credit as of giving it.

SECESSION ITEMS.

News from the South.—A letter received yesterday morning from Charleston, S. C., to a relative in this city, avows the determination of the citizens to take the forts at that place.

A writer in the *Boston Herald* thus compares the Union and Disunion forces in the United States:

Supporters of Lincoln for Union		1,786,489
" " Douglas " "		1,000,000
" " Bell " "		400,000
" "Breckinridge "		260,000
Whole number for Union		3,386,489
Supporters of Breckinridge against Union	584,897	
Supporters of Douglas against Union	354,423	
Supporters of Bell against Union	205,891	
		1,145,121
Majority for the Union		2,241,369

Allowing this estimate to be anywhere near correct, and the South would appear to be just nowhere in the matter of secession.

The Washington *Star* says: A day or two since one of the Cabinet officers noticing on the coat of a subordinate a singular looking badge, and suspecting its character, requested the individual to call at his room. He then inquired of the young man the meaning of this device. "Sir," responded he in reply, "that is a Palmetto badge, and signifies that I am for secession." "Then, sir," replied the high official, "I will inform you that your services in this Department are no longer required, and your successor will be appointed to-night."

A Charleston correspondent of the New York *Times*, speaking of the threatened attack upon Fort Moultrie by the mad caps of South Carolina, says: I venture to predict that, if the armed men of this city make the attempt to capture Fort Moultrie (which will be the one attacked), and if the officers and soldiers now there are suffered to remain, and are not overruled and rendered powerless by some characteristic cowardly order from the War Department or President, but are suffered to defend the fort and themselves as best they can, the population of Charleston will be less by considerable the day after than it was the day before. Whenever that attack is made, when "the gallant young men of Charleston," as Mr. Memminger flattered them, and the chivalry of South Carolina go down to Fort Moultrie to take it, they will find that things have been got in readiness to receive them.

Ex-Gov. Wise of Virginia has written a letter opposing secession.

Gen. Scott says if secession occurs, it will result not in the formation of two, but four distinct nationalities. The first will embrace New York, New England, Pennsylvania, Michigan, Wisconsin, Iowa and Minnesota. The second will consist of Indiana, Illinois, Ohio, Western Virginia, and so along down the Blue Ridge, taking in Western Florida, Alabama, Mississippi, Louisiana, Tennessee, Arkansas, Kentucky, Missouri and Texas. The third will consist of South Carolina, Georgia, East Florida, Eastern Virginia, and, perhaps, Maryland and Delaware. The Pacific states will constitute the fourth.

To the People of the United States.

A RECOMMENDATION.

Numerous appeals have been made to me by pious and patriotic associations and citizens, in view of the present distracted and dangerous condition of our country, to recommend that a day be set apart for HUMILIATION, FASTING and PRAYER throughout the Union. In compliance with their request, and my own sense of duty, I designate

FRIDAY, the 4th day of January, 1861, for this purpose, and recommend that the people assemble on that day, according to their several forms of worship, to keep it as a solemn Fast.

The Union of the States is at the present moment threatened with alarming and immediate danger—panic and distress of a fearful character prevail throughout the land—our laboring population are without employment, and consequently deprived of the means of earning their bread—indeed, hope seems to have deserted the minds of men. All classes are in a state of confusion and dismay; and the wisest counsels of our best and purest men are wholly disregarded.

In this, the hour of our calamity and peril, to whom shall we resort for relief but to the God of our Fathers? His Omnipotent Arm only can save us from the awful effects of our own crimes and follies—our own ingratitude and guilt towards our Heavenly Father.

Let us, then, with deep contrition and penitent sorrow, unite in humbling ourselves before the Most High, in confessing our individual and national sins, and in acknowledging the justness of our punishment. Let us implore Him to remove from our hearts that false pride of opinion which would impel us to persevere in wrong for the sake of consistency, rather than yield a just submission to the unforseen exigencies by which we are now surrounded. Let us, with deep reverence, beseech Him to restore the friendship and good will which prevailed, in former days, among the people of the several States; and above all, to save us from the horrors of civil war and "blood-guiltiness." Let our fervent prayers ascend to His throne, that He would not desert us in this hour of extreme peril, but remember us as He did our fathers in the darkest days of the Revolution, and preserve our Constitution and our Union, the work of their hands, for ages yet to come. An Omnipotent Providence may overrule existing evils for permanent good. He can make the wrath of man to praise Him, and the remainder of wrath He can restrain. Let me invoke every individual, in whatever sphere of life he may be placed, to feel a personal responsibility to God and his country for keeping this day holy, and for contributing all in his power to remove our actual and impending calamities.

FROM SOUTH CAROLINA.

THE ASSEMBLING OF THE CONVENTION.

A Committee appointed to Draft an Ordinance on Secession.

THE SECESSIONISTS SNUBBED BY THE FOREIGN CONSULS.

COLUMBIA, S. C., Dec. 17.

A heavy fog, combined with the small pox and the panic, has caused a general gloom in the city. A strong effort will be made to adjourn the Convention to Charleston. If not, then the secession ordinance will probably be passed.

The Convention assembled at noon, General Jameson, temporary Chairman.

The outside attendance was small.

The Convention proceeded with the enrollment of names.

An invitation received from the Legislature to participate in the inauguration of the Governor was laid on the table until an organization was effected.

The members appeared calm and unimpassioned.

A general stampede was taking place on account of the small pox.

The Convention chose Mr. Jameson permanent President on the fourth ballot. On taking the chair he thanked the Convention for the honor conferred on him, and implored God's protection to the State.

A resolution was offered, that when the Convention adjourns to-day, it adjourn to meet in Charleston to-morrow afternoon.

Considerable debate ensued for and against the resolution. The debate was participated in by Keitt, Cochrane, Miles and others, when the resolution was adopted.

A resolution was adopted to invite the commissioners of Alabama and Mississippi and other States to take seats on the floor.

Messrs. Cobb, of Georgia, Elmor, of Alabama, and Hooker, of Mississippi, were invited to address the Convention at 7 o'clock this evening. The resolution was carried.

A recess was taken from 5 1-2 to 7 o'clock.

Fourteen cases of small pox were reported yesterday, and 7 to-day.

The Legislature has adjourned to meet at Charleston.

EVENING SESSION.

The Convention re-assembled at seven o'clock, Mr. Jameson presiding.

Mr. Ingles introduced the following resolutions:

Resolved, That a committee of — members be appointed to draft an ordinance proper to be adopted by this Convention, in order to accomplish the purpose of secession.

Resolved, That individual members of this Convention desirous of submitting for consideration any draft or scheme, are requested to hand the same in without delay, to said committee.

Resolved, That the acts of the Assembly of this State providing for the assembling of this Convention be referred to the same committee with instructions to report thereon.

Ex-Gov. Adams here introduced to the Convention the Commissioners from Alabama and Mississippi, who were greeted with applause.

The Commissioners made a few remarks to the Convention, moderate in tone, principally going to show that they had been sent by the Governors of their States in accordance with the wishes of the people.

The first resolution was adopted unanimously.

After considerable debate involving a question of appointing additional committees to avoid referring all matters to one committee, the blank was filled with seven.

The resolutions were adopted.

The Commissioners of Alabama and Mississippi were requested to meet the Convention at Charleston, and their credentials were entered on the journal.

At half-past ten o'clock the Convention adjourned.

New York, Dec. 18.—The *World* learns authentically that the British and French Consuls at Charleston have been approached by the secessionists, with a view to secure their co-operation. But both replied explicitly that any communications to them would be immediately transmitted to the State department at Washington.

Baltimore, Dec. 18.—Judge Handy, Commissioner from Mississippi, has arrived to confer with the Governor. Nearly all the leading business men have petitioned for an extra session of the Legislature. It is believed that the Governor will call it.

FROM WASHINGTON.

SECESSIONS FROM THE UNION COMMITTEE.

Meetings of State Delegations.

Washington, Dec. 18.—The House Post Office Committee have voted to report in favor of refunding $12,000 indemnity in the Boston Post Office matter.

[*Times* correspondence.]—The select committee tabled several resolutions offered by Southerners, including one proposing a renewal of the Missouri compromise line.

Mr. Davis, of Maryland, offered a proposition for a modification of the fugitive slave law, and having acted thereon to report action to the House.

The Committee voted to consider it.

Mr. Davis, of Mississippi, said, as Northern gentlemen are unwilling to come forward like men and place themselves on record, he would withdraw, and asked to be excused, which was done.

Several other Southerners, perhaps all, would leave the committee to-morrow.

The Illinois House delegation held a meeting. Lovejoy and Morris were absent. A resolution was informally agreed upon, that the Union must and shall be preserved. Another meeting will be held, at which efforts will be made to have the full delegation present, including the Senators, in order that the resolution may be unanimously and formally adopted.

The New Hampshire delegation held a meeting and unanimously resolved for the protection of the public property and the enforcement of the revenue laws at all hazards.

FROM EUROPE.

Arrival of the Etna with £70,000.

The Atlantic on the way with £150,000.

TERRIBLE DISASTER.

ONE HUNDRED AND SEVENTY LIVES LOST.

New York, Dec. 18.—The Etna, from Liverpool 5th, and Queenstown 6th, has arrived.

The Etna brings seventy thousand pounds sterling in gold.

The Atlantic had sailed with one hundred and fifty thousand pounds sterling.

A fearful explosion had occurred in Risca coal mine, near Newport, Wales. One hundred and seventy lives were lost.

Henry Hiller, of Manchester, in the Levant trade, had suspended. Considerable liabilities.

Later.—The Etna's specie amounts to £66,000 sterling.

Burning of a Steamship in New York Harbor.

New York, Dec. 18.—The steamship John P. King, of the Charleston Line, is burning rapidly off the Battery, and will probably be totally destroyed. The steamer took fire at 4 o'clock this morning at her pier, and was towed soon afterwards into the river. She was surrounded by ferry boats and steamers, some playing on her, and others containing steam and hand engines doing so. The John P. King was about 1400 tons, and worth upwards of $100,000.

Later.—The King is nearly destroyed. She is valued at $160,000. Owned here and in Charleston. Partly insured.

From Pike's Peak.

Fort Kearney, Dec. 18.—Denver City dates of the 13th report that rich diggings had been opened at the Georgia Gulch, one miner having averaged over five hundred dollars per week.

Heavy Failure in Baltimore.

Baltimore, Dec. 17.—Kirkland, Chase & Co., the largest shipping house in this city, have suspended, owing to the decline in coffee, sugar and molasses, of which their stock is immense. Liabilities near a million of dollars. Assets nearly equal. It is hoped they will be able to resume.

Collision Between Two Steamships.

New York, Dec. 18.—The James Adger and R. R. Cuyler, respectively from Charleston and Savannah, were considerably damaged by collision, in going out of the docks this morning.

LOCAL NEWS ITEMS.

Court of Justices.

TUESDAY, Dec. 18.

There were two special sessions of this Court—one holden on Saturday, when Henry Dunnagan was arraigned under a complaint as a common nuisance, and pleading guilty, was sentenced to three months imprisonment in the County Jail in the city of Providence; and also on Monday, when Caroline C. Weaver was arraigned for stealing a cloak from the wagon of Isaac Smith of Middletown. To this complaint she plead guilty, and was sentenced to three months in the Reform School in the city of Providence.

At the session this morning, only two cases were entered:

City of Newport vs. Henry A. Wright, for allowing a dog to run at large in the streets of the city without a license. Defendant called and defaulted, and judgment given for $5 fine and costs taxed at $2,05.

City of Newport vs. Thomas E. Ash, same complaint and same judgment.

The Court then adjourned; and although the proceedings of Courts of Justice may sometimes be somewhat ambiguous, yet the closing of this session was free from any such charge, for policeman Carpenter adourned the Court in a stentorian voice, to meet again, without "doubt," according to law. The Court in this case being shut off from the privilege usually alloted to the worst of offenders, of a reasonable "doubt."

DONATION MEETING.—A donation meeting is appointed for to-morrow evening at the South (Freewill) Baptist Church, corner of Thames and South Baptist Street, to commence at 7 o'clock. The object of this meeting is to aid the worshippers in that house in sustaining stated preaching there, which being of limited means, they are not able to do of themselves unaided. Much interest and solicitation has been expressed for the success of this effort to multiply the means of grace in our city, and an opportunity is now presented to give to this feeling a practical turn. To men who appreciate the benefits of public worship, it will not be necessary to demonstrate the claims of this enterprise. We trust they will act up to their convictions of right in this matter, and give substantial proofs of their good will in the premises.

We learn that it is expected clergymen and laymen of other churches will be present and add interest to the occasion.

DING, DONG BELL.—The new alarm bell arrived yesterday morning, and was duly installed in its new position on the City Hall. Last evening at 5 o'clock the first notes were struck and the sound went forth through the length and breadth of the city. It weighs 504 pounds—less than one-half what was originally intended, owing to a change in the mind of our City Fathers since the passage of the original order. The present is quite large enough to wake up the sleepers in the immediate vicinity of the Hall in case of fire, after which their lungs will do the rest towards alarming the city.

PROSPECTUS
OF
THE NEW-YORK LEDGER.

We intend to make the NEW-YORK LEDGER for 1861 superior to that of 1860, or of any other year in the past. UNITED STATES, EDWARD EVERETT, GEORGE BANCROFT, WILLIAM CULLEN BRYANT, JOHN G. SAXE, GEORGE P. MORRIS, N. P. WILLIS, GEORGE D. PRENTICE, THOMAS DUNN ENGLISH, SYLVANUS COBB, JR., EMERSON BENNETT, T. S. ARTHUR, P. HAMILTON MYERS, COL. WALTER B. DUNLAP, S. COMPTON SMITH, JOHN ESTEN COOKE, MRS. SIGOURNEY, MRS. SOUTHWORTH, FANNY FERN, ANNA CORA RITCHIE, ALICE CARY, MARY FORRESTER, MARION HARLAND, MISS E. A. DUPUY, MARY STANLEY GIBSON, PHEBE CARY, and many Clergymen, Professors in Colleges, Statesmen and other eminent writers residing in different parts of the Union

Our *Corps* of contributors for the coming year will be so large, and will embrace such a variety of eminent talent, that every department of literature will receive the particular attention of some one competent to do it ample and special justice. Whether it be popular romance, scientific essay, historical sketch, scholastic disquisition, spicy paragraph, pathetic ballad, humorous poem, old-fashioned love story, timely editorial, or any other ingredient of popular and elevated journalism, that is to be furnished, the LEDGER *corps* will be sufficient for the task. In fact, our contributors will send us from week to week much more matter than we can possibly use, so that we shall always have a fresh and superabundant supply, from which to select THE VERY BEST. These facts, taken in connection with our largely increased means, facilities, and experience, warrant us, we think, in promising our readers a family paper for the year 1861 which will be more interesting and instructive, and in every respect more valuable, even than the LEDGER has been in the past.

As an indication of the popularity of the LEDGER, we need only state the simple fact that its circulation is larger than that of any other TEN literary papers in the country. Its great success is owing to the fact that we secure the best writers in the country, and spare NO expense in getting up the BEST FAMILY PAPER—a paper of high moral tone. The exalted reputation of its contributors, the practical and invariably pure and healthy character of all its articles, the care which is taken that not even one offensive word shall appear in its columns, and the superiority of its Tales and Sketches, have gained for the NEW-YORK LEDGER a position that no literary paper has ever before reached

—ANNA CORA RITCHIE of Richmond, Va., and Col. WALTER B. DUNLAP, the author of the popular "Forest Sketches," which were published in our columns some time since, will each begin a story in the LEDGER early in the new year. Mrs. SOUTHWORTH is also engaged upon a new tale.

—In the next number of the LEDGER, we shall publish a very interesting article, written expressly for our columns, entitled, A DAY WITH LORD BYRON, from the pen of the Hon. George Bancroft.

—It is with much satisfaction that we announce that Mr. EVERETT will continue his elegant and interesting contributions to the LEDGER during the next year.

As this is the season of the year when Postmasters and others are in the habit of forming clubs, we direct their particular attention to

OUR TERMS.

Single copies, $2 per annum; two copies, $3; four copies, $6; eight copies, $12. Postmasters and others who get up clubs can afterward add single copies at $1 50. The party who sends us $12 for a club of eight copies (all sent at one time) will be entitled to a copy *free* for his trouble. Terms invariably in advance. No subscriptions taken for a less period than one year. Canada subscribers must send twenty six cents in addition to the subscription, to pay the American postage, which is half a cent a copy on every paper. The notes of all specie-paying banks taken at par. When a draft or check can conveniently be sent, it will be preferred, as it will prevent the possibility of the loss of money by mail.

☞ We employ no travelling agents.

The Infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a reliable Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often recommended by the Medical Faculty, as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling at reasonable rates, a Brandy of our own importation, from one of the most respectable houses in France, and known as

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who are seriously afflicted with any Kidney complaints are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

GREAT INDIAN REMEDY.

For Females.

Dr. Mattison's Indian Emmenagogue.

This celebrated Female Medicine, possessing virtues unknown of anything else of the kind, and proving effectual after all others have failed, is prepared from an Indian Plant used by the natives for the same purpose from time immemorial, and now for the first time offered to the public. It is designed for both MARRIED and SINGLE Ladies, and is the very best thing known for the purpose, as it will bring on the Monthly Sickness in cases of obstruction, after all other remedies of the kind have been tried in vain. This may seem incredible, but a cure is guaranteed in all cases, or the price will be refunded.

1000 Bottles

Have been sold in eighteen months, WITHOUT A SINGLE FAILURE when taken as directed, and without the least injury to health in any case. ☞ It is put up in bottles of three different strengths, with full directions for using, and sent by Express, closely sealed, to all parts of the country. PRICES:—Full strength, $10. Half strength, $5. Quarter strength, $3 per bottle. Either will cure, but the strongest is the best, as it takes less, and cures in the SHORTEST TIME. ☞ Prepared and sold ONLY at DR. MATTISON'S REMEDIAL INSTITUTE FOR SPECIAL DISEASES, No. 28 UNION STREET, PROVIDENCE, R. I. ☞ REMEMBER! This medicine is designed expressly for OBSTINATE CASES, where all other remedies of the kind have been tried in vain. Beware of IMITATIONS! None warranted unless purchased DIRECTLY of Dr. M. ☞ Orders by mail promptly attended to. Write your address PLAINLY, and direct to DR. H. N. MATTISON as above.

Dr. Mattison's

REMEDIAL INSTITUTE,

FOR

Special Diseases,

No 28 UNION ST., PROVIDENCE, R. I.

☞ This SPECIALITY embraces all diseases of a PRIVATE nature both of MEN and WOMEN, by a regularly educated physician of twenty years' practice, giving his WHOLE attention to them. ☞ Consultations by letter or otherwise are strictly confidential, and medicines will be sent by Express, secure from observation, to all parts of the United States. Also, accommodations for patients from abroad wishing for a secure and quiet Retreat, and good care until restored to health. Circulars giving full information with the most undoubted references and testimonials sent by mail. Also a pamphlet on DISEASES OF WOMEN and on Private Diseases generally, sent FREE by enclosing one stamp as above.

To Invalids.

All who have any serious or troublesome disease will very naturally seek advice somewhere, and this leads me to say a few words on the CHOICE OF A PHYSICIAN. And first, LET ALL QUACKS, IMPOSTERS AND HUMBUGS ALONE. If you have an intelligent physician in your vicinity apply to him, and follow his direction for a sufficient length of time, and he will probably cure you; if not, then apply to one who makes your disease a SPECIALITY, for no physician in general practice, no matter how eminent, can treat a given disease or class of diseases as successfully as one of the same ability who devotes his whole attention to them. But here let me put you on your guard. ADVERTISING PHYSICIANS, IN NINE CASES OUT OF TEN, ARE IMPOSTORS. Unable to write a single sentence correctly themselves, they copy by the half column the quack advertisements from the Boston Herald, simply changing the names and place of business. They publish FALSE CERTIFICATES of persons who NEVER EXISTED, enticing the unwary into their rooms, and after getting their names and residence, extort large sums of money from them under threats of exposure, or insult them by their coarse and vulgar profanity. There are scores of persons who will read this that can attest to its truth from EXPERIENCE, and yet they are compelled to suffer in silence for fear of exposing themselves. The only security against imposition is in making INQUIRY before consulting ANY ONE. Take no man's word, but ask for the PROOF, one word of which is worth more to you than half a column of extravagant and false ASSERTIONS. If you allow yourself to be misled by false statements and go blindly into traps set for you without making any inquiry, you will have reason to repent it when it is too late.

DR. MATTISON is the only educated Physician in Providence, if not in New England who devotes exclusive attention to Private Diseases and Diseases of Women, and he furnishes the most undoubted references and testimonials to all. If there are any others, LET THEM DO THE SAME.

MR. GEORGE SHARROCK takes this opportunity to inform his numerous patrons, and the public generally, that he has commenced the TIN PLATE AND SHEET IRON BUSINESS, in all its branches. He will pay particular attention to Jobbing, Repairing, &c., &c. He is to be found at his Old Stand, No 224 Thames Street, (opposite the Perry Mill,) where they will find a good assortment of Cutlery, Plated and Brittania Ware, Glass, China, Crockery, Jappanned and Wooden Ware, &c., &c. n6

THE AMALGAMATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Head ache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

'Ardly Realized.

Hi 'ad 'n 'orrible 'eadache this hafternoon, hand I stepped into the hapothecaries hand says hi to the man, "Can you hease me of an 'eadache?" "Does it hache 'ard," says 'e "Hexceedingly," says hi, hand upon that 'e gave me a Cephalic Pill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad ad an 'eadache.

☞ HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symtomatic and Idiopathic. Symtomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach, constituting *sick headache*, of hepatic disease constituting *bilious headache*, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches: Anemia and plethora are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of *nervous headache*, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper.—In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named *Neuralgia*.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtile power eradicating the diseases of which Headache is the unerring index.

Bridget.—Missus wants you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills,—but I'm thinking that's not just it naither, but perhaps ye'll be afther knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as relaived her before.

Druggist.—You must mean Spalding's Cephalic Pills.

Bridget.—Och! sure now and you've sed it, here's the quarther and give me the Pills and don't be all day about it aither.

Constipation or Costiveness.

No one of the "many ills that flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abscesses, Dysentery, Diarrhea, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage.—From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

☞ FACT WORTH KNOWING.—Spalding's Cephalic Pills are a certain cure for Sick Head ache, Bilious Headache, Nervous Headache, Costiveness and General Debility.

Cephalic Pills,

CURE SICK HEADACHE!

Cephalic Pills,

Cure Nervous Headache!

Cephalic Pills,

CURE ALL KINDS OF HEADACHE!

By the use of these Pills the periodic attacks of *Nervous or Sick Headache* may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.

They seldom fail in removing the *Nausea*, and *Headache* to which females are so subject.

They act gently upon the bowels,—removing *Costiveness*.

For *Literary Men*, *Students*, Delicate Females, and all persons of *sedentary habits*, they are valuable as a *Laxative*, improving the *appetite*, giving *tone* and *vigor* to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headache, whether originating in the *nervous* system or from a deranged state of the *stomach*.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, *and the absence of any disagreeable taste renders it easy to administer them to children.*

C.—For Catarrh, of long standing or recent, either with obstruction or profuse discharge.
W. C.—For Whooping Cough, abating its violence and shortening its course.

In all acute diseases, such as Fevers, Inflammations, Diarrhea, Dysentery, Croup, Rheumatism, and such eruptive diseases as Scarlet Fever, Measles, and Erysipelas, the advantage of giving the proper remedies promptly is obvious, and in all such cases the specifics act like a charm. The entire disease is often arrested at once, and in all cases the violence of the attack is moderated, the disease shortened, and rendered less dangerous.

Coughs and Colds, which are of such frequent occurrence, and which so often lay the foundation of diseased lungs, bronchitis, and consumption, may all be at once cured by the Fever and Cough Pills.

In all chronic diseases, such as Dyspepsia, Weak Stomach, Constipation, Liver Complaints, Piles, Female Debility, and Irregularities, old Headaches, Sore or Weak Eyes, Catarrh, Salt Rheum, and other old eruptions, the case has specifics whose proper application will afford a cure in almost every instance. Often the cure of a single chronic difficulty, such as Dyspepsia, Piles or Catarrh, Headache or Female Weakness, has more than paid for the case ten times over.

SEWING MACHINES.

LANGLEY & NORMAN would inform the citizens of Newport and vicinity, that they have been appointed agents for GROVER & BAKER'S CELEBRATED SEWING MACHINES, and that they are now prepared to furnish Manufacturing or the Improved Family, Machines, at Manufacturers prices.

We would invite especial attention to the IMPROVED SHUTTLE MACHINE, it being very simple, not liable to get out of order, uses a straight needle, runs with great speed, and makes the stitch alike on both sides. Though made expressly for TAILORS AND SHOE BINDERS, it is found to be as well, if not better, adapted to the general work of a family as any machine that has yet been invented. These machines are sold for $50, though capable of doing any work that can be done with any of the $100 Sewing Machines. ap4tf

Despair Not, Relief is at Hand

CAUTION TO THE AFFLICTED.

Dr. Cudworth,

NO. 181 HIGH STREET, PROVIDENCE

AFTER an extensive practice for many years, and witnessing the rise and fall of empyricism to almost an alarming extent, owing to the laxity of the laws in large cities, which gives to the mere ignoramus the same privilege of practicing medicine in all diseases incident to the human system, which the most scientific, skilful and experienced physician and surgeon can in any case claim, deems it his duty to caution strangers to beware of certain up-starts, who make great pretensions to the healing art, without so much as a shadow of medical education.

The experience of many years in cases of a venereal nature, in its various forms, will prove beneficial to those suffering from such diseases, and from his practical knowledge of every symptom consequent on, or arising from badly cured cases of Venereal Complaint, he would caution all having any secondary symptoms remaining, to be at once cured properly before it has undermined their constitution, and broken down their intellectual faculties.

TO YOUNG MEN—The temptations to which youth are constaly exposed, and the various snares laid to entrap them by the vicious and designing are fearfully on the increase in this city of "steady habits." All who may be suffering from any such indiscretions, should bear in mind that the sooner they make their situation known to some practical medical man, the better it will be for their future welfare and happiness. Dr CUDWORTH can be consulted at all hours to advantage.

YOUNG MEN, YOU CAN BE CURED.

Dr. CUDWORTH calls the attention of young men to his splendid and invigorating Compounds, so famous for the cure of the following diseases,

Coughs, Catarrh, Bronchitis, Consumption, Asthma, all diseases of the Chest and Lungs, Dyspepsia, Liver Complaint, Cancer, Scrofula, Erysipelas, &c., Pains in the Limbs and Joints, Dizziness in the Head, Ringing in the Ears, Loss of Memory, Confusion of Ideas, Constitutional Debility, Want of Rest, Loss of Apetite, Cold Hands and Feet, Rush of Blood to the Head, Melancholy Forebodings, Trembling in the Stomach, Palpitation of the Heart, Pain in the Sides and Back, and all symptoms caused by Seminal Weakness, or any other complaints which indiscreet persons are subject to.

BE WISE—When afflicted with a certain disease do not spend your money to have your health ruined by taking a host of medicines, such as mixtures, extracts, specifics, antidotes, etc., that are advertised as certain cures, which will only drive the unfortunate victim almost to despair. Call at once on a physician who will cure you in a few days

CONFIDENTIAL—Ladies or gentlemen requiring medical advice or treatment arising from any cause, would do well to banish all present diffidence and make an early application to Dr. Cudworth. The Doctor's long and successful practice, together with the marvellous cures, are unquestionable guarantees of his skill and ability.

DR. CUDWORTH'S FEMALE SPECIFIC—This remedy, which has been so successfully used in all cases of Suppression and Irregularity incidental to married and single ladies, is only to be procured at his office, No. 3 Orange street, Providence, R. I.

The testimony as to the invaluable virtue of this curative over all others, is incontestable.

Sent by mail to all parts of the Union, or by express. All letters enclosing $1 for advice, duly attended to.

WORCESTER, Dec. 15, 1858.
